Speech of renowned environmentalist Mr. Dilip Kulkarni Kudavale Tal Dapoli

Speech was organized in the college. Subject was "Environment and Science."

He has taken an overview of developments in science and technology and its use for making human life more and more leisure and luxurious. This development in science and technology was based on principles of Dekarte and Beckon. This was fastly developed after Newton's invention. By using this science and allied technology human being make their life more luxurious at any cost of nature and environment.

He expressed that relation between nature and human is like mother and child. so he appeal the audience not to harm our mother.

But he express his hope that modern physics and entire science is totally different than Newtonian science and which brought the glory of earth back.

Organisation of Documentary film on occasion of 'Jaljagrutee Week'

One documentary film on 'Save Water' was shown to PG students of the college. The documentary film was based on water resource management and improvement of water. It also focus the minimization of use of water avoiding wastage of water.
