Resource Person:- Mr. Vikrant Ashok Kulkarni

Founder and CEO, Mohor Superfoods.

Date:- 14 August 2021

Time:- 11 am to 12 pm

Department of Botany in association with IQAC conducted the National webinar on “*Spirulina* Farming: Environmentally Sustainable Future Food Source” for the students, scholar and teaching faculties.

The speaker Mr. Vikrant Ashok Kulkarni, Founder and CEO, Mohor Superfoods, an ecologist by passion and environmental scientist by profession. He has extensive experience in marine ecological surveys across Indian coastline. He has research experience in the National Institute of Oceanography. After completing his research on marine micro algae, he worked as Environmental Consultant with marine environment as his forte as well as worked on many iconic projects in infrastructure development of India. Currently he is rendering services on Environment and Social Impact Assessment for infrastructure projects funded by World Bank, International Finance Corporation, Asian Development Bank and Founder and CEO of Mohor Superfoods.

e Course content delivered in the webinar is as follows:

The Speaker of the session Mr. Vikrant Ashok Kulkarni presented the keynote address on “*Spirulina* Farming: Environmentally Sustainable Future Food Source”. He discussed the basic concept used in the *Spirulina* farming and nutraceuticals. He emphasized on the importance of spirulina, origin, nutritional value, health benefits as a food source, how to farm *Spirulina*, cost for farming etc. “you can get all the nutrients in your daily diet by consuming 1 gram of *Spirulina*” using this sentence he inspired the students and participants. He insisted to the students for spirulina farming and making environmentally sustainable good food source in future

The feedback about the session was collected from all the participants to improve the sessions that will be conducted in the future. The sample details collected from the participants is as follows:
